## XtremeCharge™

### Part Number

### Description

**100X010 XC100-P**

#### **12-V Xtreme Charge™ Battery Charger**

Use PulseTech® XC100-P Xtreme Charge™ Five-Stage Maintenance Battery Charger for evaluation and testing, maintenance and 2.5-A (5-A effective) bulk charging. Has proprietary charge algorithms, variable float charge and patented PULSE technology.

**100X825 XC-EXT 25'**

#### **25' Battery Lead Extension for XtremeCharge Maintenance Charger**

Extend your charger's reach with this 25-foot lead extension. Both ends feature Quick Disconnect connector. Ideal for those equipment located too far away from power outlets.

**100X827 XC-CLIPS**

#### **Battery Lead with Clips for Xtreme Charge Maintenance Charger**

Expand your charger's use with an extra Battery Lead with Clips. This unit is 4 feet long, has a 7.5 A fuse, Quick Disconnect on one end and versatile clips on the other for all types of battery terminals. Use as additional or replacement lead.

**100X830 XC-LUGS**

#### **Battery Lead with Lugs for Xtreme Charge Maintenance Charger**

Expand your charger's use with an extra Battery Lead with Lugs. This unit is 4 feet long, has a 7.5 A fuse, Quick Disconnect on one end, and ring lugs on the other end. Ideal for a spare or replacement lead.
